

## Esther King Candidate Statement

I have enjoyed and benefited from KPFT's Programming since 1967. A large part of my social and political consciousness is derived from this long association with that unique source of consistent radio programming over all these years.

I want to work with others as a KPFT board member to specifically maintain and broaden KPFT's exposure to an ever large African-American listening audience.

I want to use my long history as an activist in the Houston area to promote KPFT's blend of an information/entertainment mix to a segment of Houston's population that has in my judgment an acute need of that kind of programming.
